Re: Notification of State Natural Resource Trustees
Harbor Oil, NPL Site
Portland, Oregon

Dear Mr. Young,

In accordance with Sections 104(b)(2) and 122(j) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the U.S. Environmental Protection Agency (EPA) is providing you with notification of negotiations regarding the Harbor Oil Superfund Site. EPA is negotiating with potentially responsible parties (PRPs) for their conduct or financing of a Remedial Investigation/Feasibility Study at the Site. EPA anticipates that negotiations on the scope of the RI/FS will commence in January or February of 2007. You are encouraged to participate in the negotiations as you deem appropriate.

I have enclosed a compact disc containing a report summarizing site conditions (a summary of previous investigations prepared by one of the PRPs), and the existing Statement of Work for conducting the RI/FS under an anticipated Administrative Order on Consent with some of the PRPs. I would appreciate hearing from you within fourteen days (14) of your receipt of this letter as to your plans for participating in the negotiations. I can be reached at (206) 553-1478.

Sincerely,

Christopher Cora,
Project Manager
